ENVISIONSAN JOSE2040

Changing Nature of Silicon Valley Workplace: Office/R&D

Monday, September 29, 2008
6:30-8:30 p.m.
Theater on San Pedro Square
29 North San Pedro St. Suite 200
(Entrance behind Peggy Sue's Restaurant)

The City of San Jose is planning its long-term future, looking out to the year 2040, at a time of clear change and experimentation in the office/R&D workplace locally. Mobile devices, Gen X/Y workers, aging Boomers, rising energy costs, climate change, economic dynamism – what will these mean for real estate demand, land use planning, and community design in San Jose/Silicon Valley?

The City is hosting four leading thinker-practitioners to discuss the changing nature of work, workstyles, and the workplace and potential implications for San Jose's General Plan Update.

Featured Panelists:

Michael Bangs, Director of Global Facilities, Adobe
Steve Hargis, Senior Vice President, HOK Advance Strategies
Larry Matarazzi, Senior Director, Workplace Solutions Group, Cisco
Gervais Tompkin, Design Strategy Leader, Gensler

This panel was developed to assist the Envision San Jose 2040 General Plan Update Task Force; interested members of the public are encouraged to attend.

Parking is available in the Market Street Garage, across San Pedro Street from the Theater. Enter on Market Street or on San Pedro Street.

To request an accommodation or alternative format for City-sponsored meetings, events or printed materials, please call John Baty at 408-535-7894 or 408-294-9337 (TTY) as soon as possible, but at least three business days before the meeting/event.
