

NOTICE OF COMMUNITY MEETING AND PUBLIC SCOPING MEETING FOR PREPARATION OF A DRAFT ENVIRONMENTAL IMPACT REPORT (DEIR) FOR THE NORTH KING ROAD AND LAS PLUMAS AVENUE GENERAL PLAN AMENDMENT CITY FILE NO. GP05-03-07

Location: American Business College 2nd Floor
650 North King Road, San Jose, CA 95133 (Location map on reverse)
Date: Thursday, February 8, 2007
Time: 6:00 p.m. – 8:00 p.m.

Dear Neighbor,

Property owner Allen Mirzaei, the Office of Councilmember Sam Liccardo, and City of San José Planning Services Division staff would like to invite you to a community meeting on the proposed General Plan amendment at the north side of the intersection of North King Road and Las Plumas Avenue (650 North King Road). This is a General Plan amendment request to change the Land Use/Transportation Diagram designation of the San José 2020 General Plan on approximately 13 acres (the entire site consists of approximately 14.23 acres, of which approximately 1.23 acres is a former railroad spur designated *Light Industrial*, which will remain unchanged) from *Light Industrial* to *High Density Residential* (25-50 du/ac) on 4.0 acres, *Medium High Density Residential* (12-25 du/ac) on 8.5 acres and General Commercial on 0.5 acres.

Community Meeting: The meeting will begin with an introduction to the proposed General Plan amendment. City staff will explain the City's General Plan amendment process and the applicant will present the details of the proposed General Plan amendment.

Public Scoping Meeting: The second part of the meeting will serve as an Environmental Impact Report (EIR) public scoping meeting for City staff to describe the proposed project's environmental review process, and to obtain your input on the EIR analysis for the proposal. You are welcome to attend and give us your input on the scope of the EIR so that it addresses all relevant environmental issues. There will also be an open forum for questions and comments.

Your participation at this early stage of the planning process will help us analyze the General Plan amendment request. If you have any questions before the meeting, please contact:

Applicant:

Allen Mirzaei, Property Owner

GENERAL PLAN AMENDMENT request to change the Land Use/Transportation Diagram designation on a 13-acre site (the entire site consists of approximately 14.23 acres, of which 1.23 acres is a former railroad spur designated Light Industrial, which will remain unchanged) from Light Industrial to Medium High Density Residential (12-25 du/ac) on 8.5 acres, High Density Residential (25-50 du/ac) on 4.0 acres, and General Commercial on 0.5 acre. (Allen Mirzaei, Owner/HMH Engineers, Applicant)

Existing General Plan Designation:

Light Industrial

This land use category is typified by warehousing, wholesaling and light manufacturing. Uses with unmitigated hazardous or nuisance effects are excluded.

Proposed General Plan Designations:

Medium High Density Residential (12-25 du/ac)

This density is typified by two-story apartments and condominiums with surface parking, although structures of greater height with compensating amounts of open space would be possible. Medium High density residential uses are planned primarily for locations on major streets and near major activity centers.

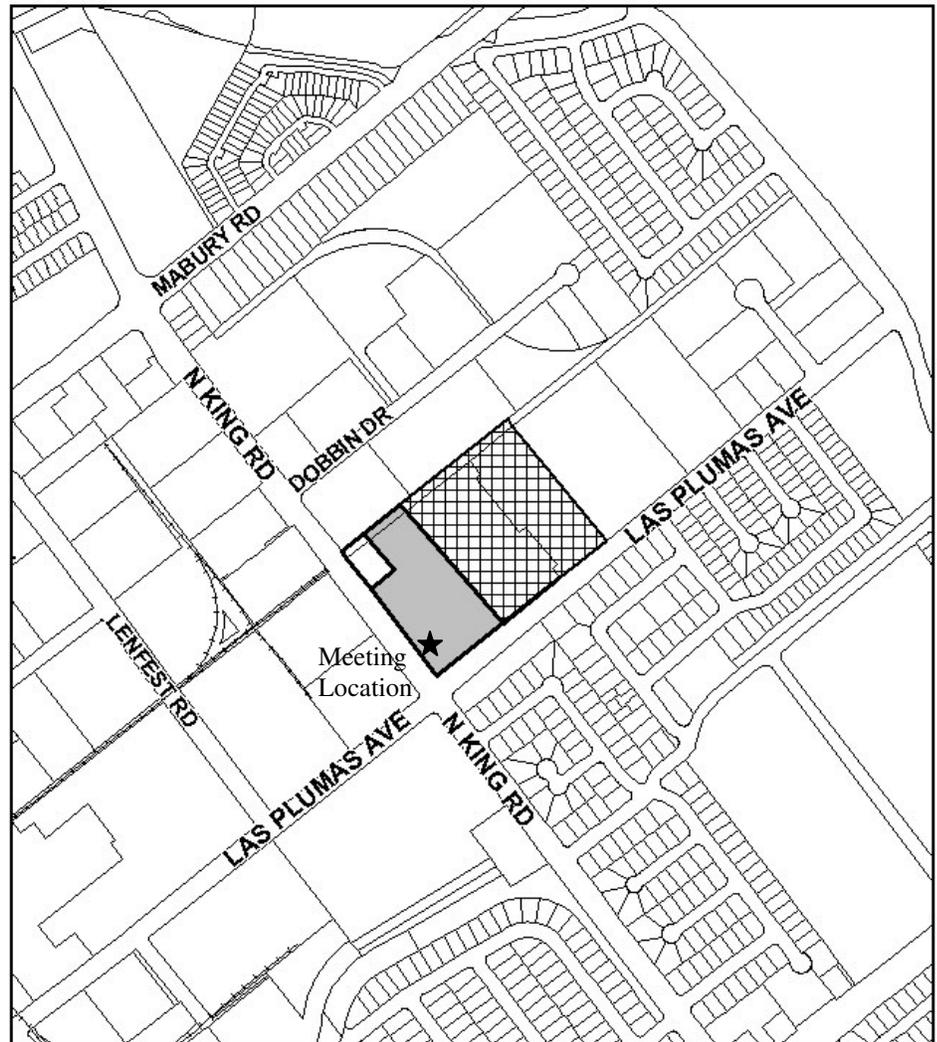

High Density Residential (25-50 du/ac)

This density is typified by three-to four-story apartments or condominiums over parking. This density is planned primarily near the Downtown Core Area, near commercial centers with ready access to freeways and/or expressways and in the vicinity of the rail stations within the Transit-Oriented Development Corridors Special Strategy Area.

General Commercial

This is a non-specialized commercial designation intended to permit miscellaneous commercial uses. It includes both strip commercial areas along major thoroughfares as well as freestanding commercial establishments.

GP05-03-07 Proposed

Department of Planning, Building and Code Enforcement
Planning Services Division

-  General Commercial
-  High Density Residential (25-50 DU/AC)
-  Medium High Density Residential (12-25 DU/AC)
