

NOTICE OF COMMUNITY MEETING

PROJECT DESCRIPTION: Special Use Permit (SP07-003) to allow a vehicle maintenance yard and recycling collection area for large items

PROJECT ADDRESS: 1655 Berryessa Road (north side Berryessa Road, approximately 1200 feet west of Lundy Avenue)

February 26, 2007

Dear Neighbor,

California Waste Solutions and the City of San José Planning staff would like to invite you to a community meeting on the proposed Special Use Permit Request to allow a vehicle parking and maintenance yard, and temporary storage of large items (such as refrigerators and other appliances) collected as part of the City's recycling program.

Representatives from California Waste Solutions will present an overview of the proposed project, and City of San José staff will explain the City's Special Use Permit process. There will be plenty of opportunities for you to provide comments on the project. We will listen to comments and respond to related questions. Your participation at the early stage of project planning will help us make sure the future activity will be a good fit for the neighborhood.

The meeting date, time, and location are shown below. If you have any questions before the meeting, you may contact the following:

California Waste Solutions

Gerry De Young, Planning Consultant
Phone: (408) 236-2400 x102
Email: gdeyoung@ruthandgoing.com

City of San José Planning Division

Chris Burton, Project Manager
