

Community Meetings/ Workshops

North San Jose Design Guidelines

The City of San Jose invites you to attend two community meetings to discuss urban design and parks in the North San Jose area.

Following the recent update of the North San José Area Development Policy, the City is now working with urban design consultants and the community to draft Design Guidelines including standards for appropriate building orientation to the street and existing development for future industrial, residential and mixed-use development.

Your attendance at the following interactive workshops will assist us in preparing the Guidelines.

*Sponsored by the City of San José and its Redevelopment Agency.
Urban design consulting services provided by Solomon E.T.C.*
