

**TEXT REVISIONS TO CANNERY PARK VILLAGE  
INITIAL STUDY/MITIGATED NEGATIVE DECLARATION  
(File PDC08-036)**

***Revisions to Initial Study***

Page 73, footnote 7, is deleted from the mitigation measure as follows:

~~<sup>†</sup> Note: the intersection of North First Street/Taylor Street also met the peak hour warrant indicating that further analysis is required to determine if a traffic signal is necessary. Additional analysis may include evaluation of vehicle queuing and delay. Other options such as traffic control devices, signage, or geometric changes may be required depending on existing field conditions.~~

Page 80, first sentence of last paragraph is revised as follows:

**Water:** The project is expected to generate the demand for approximately 1230,000 gallons per day of potable water.

***Revisions to Mitigated Negative Declaration***

Page 4, footnote 1, is deleted from the mitigation measure as follows:

~~<sup>†</sup> Note: the intersection of North First Street/Taylor Street also met the peak hour warrant indicating that further analysis is required to determine if a traffic signal is necessary. Additional analysis may include evaluation of vehicle queuing and delay. Other options such as traffic control devices, signage, or geometric changes may be required depending on existing field conditions.~~
