

To our Civic Leadership

Please Save Our Stores

WHEREAS it is our belief that the vitality of our existing shopping centers is critical to the health of our community;

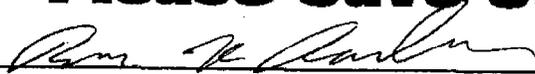

WHEREAS the over-saturation of the area with grocery stores will inevitably mean that the older grocery stores will not survive;

WHEREAS WHEN a shopping center loses its anchor, the other neighborhood serving stores in the center also suffer and frequently do not survive.

WHEREAS the proposal by Evergreen Community College to add a supermarket on the corner of San Felipe and Yerba Buena Road will create just such over-saturation.

THEREFORE, the undersigned request that the revised Evergreen Development Policy explicitly state with regard to future commercial development within the Evergreen Valley Community College Opportunity Site, that "This commercial square footage may be used for either retail or commercial office development, but may not be allocated for development of a grocery store." The adoption of this Policy statement is crucial to the continued viability of existing grocery and retail stores operating within the area.
