

Planned Job Capacity and Housing Growth Areas by Horizon										
839,450 Jobs and 429,350 Dwelling Units; 1.3 J/ER										
Existing 2008 Development: 369,450 Jobs & 309,350 DU										
Planned Growth Above Existing: 470,000 Jobs & 120,000 DU										
<p>The following table sets forth a phasing plan based upon five time periods (Horizons). The Land Use / Transportation Diagram will change for each Horizon. Village or Corridor areas identified for potential housing growth will be available for employment use during any Horizon, but only available for expanded housing use once implementation of the General Plan enters the indicated Horizon. The Diagram will change from one Horizon to the next to identify new housing growth areas as indicated on the Table. Job growth may occur in all growth areas at any point in time (e.g., in any Planning Horizon). The Table indicates the planned amount of housing growth in each Horizon for each Growth Area. Growth Areas with capacity for more than 1,000 dwelling units are planned to develop over multiple Horizon time periods. Horizon 1 Growth Areas are highlighted in red.</p>										
	Acres	Planned Job Capacity	Planned Housing Yield (DU)	Mixed-Use Residential Acres (Max.)	Planned DU Growth by Horizon (Timeframe)					
					Base	Horizon 1	Horizon 2	Horizon 3	Horizon 4	Horizon 5
Total Plan Growth Capacity		470,000	120,000		29,520	18,599	17,599	18,173	17,690	18,419
Downtown										
Downtown		48,500	10,360	N/A*	1,140	1,844	1,844	1,844	1,844	1,844
Portion Housing Capacity Already Entitled			1,139							
Downtown Sub-Total		48,500	10,360		1,140	1,844	1,844	1,844	1,844	1,844

Notes:										
DU = Dwelling Units (Occupied and Vacant)										
Planned Job Capacity = The number of jobs which can potentially be accommodated within the identified growth area and which is being used for technical analysis and also to establish a job growth goal (Objective) for the General Plan Update.										
Planned Housing Yield (DU) = The number of new dwelling units which would be produced within the identified growth area through redevelopment of the planned Mixed-Use Residential land areas at the anticipated density (DU/AC)										
Projected DU Growth by Horizon (Timeframe) = The planned number of new dwelling units within each growth area based upon the availability of Housing Growth Areas designated on the General Plan Land Use Diagram being made available in phases over time.										
N/A* = The Planned Housing Capacity for the Downtown and Specific Plan Areas is based on the current land use plans for those areas and would not include the conversion of additional lands to mixed-use residential.										
Mixed-Use Residential Acres (Max.) = The maximum acreage within the identified Village growth area which may be developed as new residentially oriented mixed-use.										
Base = Existing entitled residential units (Citywide) plus the capacity for new residential units planned within Specific Plan areas.										
Vacant Lands = Potential development capacity based upon the current General Plan designation for sites identified as being currently vacant or significantly underutilized in respect to the current General Plan designation typical density yield. These lands are identified in the Vacant Land Inventory most recently updated by the City in 2007.
